

# Comstock Neighborhood

## Traffic Problem Reporting Checklist

If you're experiencing traffic-related problems within the Comstock neighborhood, this checklist provides residents with some ideas on what to do next. Whether it's excessive speeding, aggressive or unsafe driving, dealing with unsafe pedestrian crossings, etc. over time taking these steps to report these problems should improve the situation. Ignoring the problem or venting on social media does not lead to progress but you can direct your passions productively in the following ways:

### ***Attend future Traffic Calming workshops***

Get involved with your neighborhood council and plan to attend future "Traffic Calming Workshops" that are held by the City of Spokane in the future. For more information how Spokane processes infrastructure projects related to Traffic Calming:

<https://my.spokanecity.org/neighborhoods/programs/traffic-calming/>

### ***Call Crime Check at 509-456-2233***

To report serious driving violations other than speeding (i.e. aggressive driving or a motor vehicle accident) report it to Crime Check. Calls to Crime Check are used by SPD to target areas with police presence. All petty crime (porch pirates), property crime (theft, burglary, etc.) should be reported to Crime Check too. Plug this number into your phone so you have it handy!

### ***Call the Speeding Hotline at 509-625-4150***

For speeding violations, please call the Speeding Hotline. You'll get a recording but do leave a message with details such as time, date, and location. Issues reported are used to target areas with police presence. Plug this number into your phone so you have it handy!

### ***Email your District 2 City Council representatives***

Locate your reps here <https://my.spokanecity.org/directory/officials/> and plug their emails into your phone. You can report general traffic calming concerns to your council representatives. They may reply with an acknowledgement and a suggestion to report the issue to your neighborhood council. Please do so, but it's still a good idea to make the city council aware and keep the issues top of mind.

### ***Get involved with your Comstock Neighborhood Council***

The Comstock Neighborhood Council meets on the 3rd Wednesday each month at Sacajawea Elementary. Contact: [comstockneighborhoodcouncil@gmail.com](mailto:comstockneighborhoodcouncil@gmail.com)

### ***Email the Spokane School District***

If the issue is Traffic Calming related to Safe Routes to Schools for parents and children contact Spokane Schools and get the issue "on their radar" too. Contact information here:

<https://www.spokaneschools.org/Page/1030>

### ***Email the Spokane Streets Department***

The streets department is unlikely to take any direct immediate action but if a particularly troublesome issue is repeatedly reported by a number of residents, this can create a bit of momentum for change.

Email Clint Harris at the Streets Department at [ceharris@spokanecity.org](mailto:ceharris@spokanecity.org) or visit the page here:
